Building Critical Career Pathways

Cyber Literacy for the Digital Age

presented by

National Integrated Cyber Education Research Center

December 6-7, 2016

8:00 a.m. to 3:30 p.m.

Azuza Pacific University

375 West Hospitality Lane, San Bernardino, CA 92408

Cyber Teach

Come test drive project-based activities that bring the real world of cyber into your classroom. Lessons are designed to provide an interactive, highly engaged learning experience that will motivate your students. The workshop includes classroom resources, cyber curriculum, and classroom instructional methods.

Cyber Relevant

Understanding the threats, responsibilities, and legal constraints associated with operating in cyberspace, is the foundation for building Cyber Literacy. As students learn about robotics, programming, electricity, and liberal arts to deliver real-world connections, they also develop fundamental workforce skills like critical thinking and effective communication. Cyber Literacy builds strong cyber foundations for students!

Who should attend? High School Teachers

All disciplines, including
Humanities, ELA and STEM
