

ADVANCED DRONE PILOT TRAINING PROGRAM

ABOUT THE PROGRAM

The Advanced Drone Pilot Training Program is a comprehensive course for adults designed to equip current drone pilots with advanced knowledge and skills to operate drones safely and legally.

This program is specifically structured to provide extended hands-on flight experience and instructor-led logged flight hours for pilots who currently possess a Remote Pilot Certification (FAA Part 107).

APRIL 13 THROUGH MAY 4, 2024

ADVANCED OPERATION

Master complex flight techniques and advanced maneuvers, enhancing your piloting precision and responsiveness for professional-level drone operations.

DAY & NIGHT FLIGHT TIME

Acquire the skills to confidently navigate drones in both day and night conditions, focusing on the unique challenges and strategies associated with day and nighttime flying.

INSTRUCTOR-LED LOGGED FLIGHT HOURS

Experience crucial flight practice with professional oversight, accumulating valuable flight hours with a focus on safety, precision, and advanced piloting techniques.
